- ◆ March 2nd—World Book Day
- ◆ Week Beginning 13th March—Science Week
- ◆ 24th March—Red Nose Day
- ◆ Week Beginning 6th March—Parent Interviews—look out for sign up sheets

What we will be learning next week

This week the children will familiarise themselves with coins and our money. They will begin to learn the value of coins and to compare and order them according to value. They will learn their names and begin to play with money in our class café.

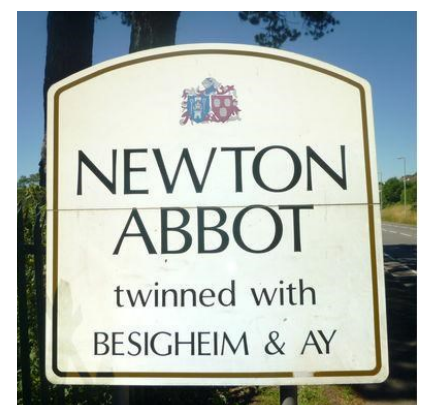

This week the children will be taking orders in our class café. We will be busy working at our daily word time session, practising recognising our sounds, blending, segmenting and writing words and sentences. To help your child please continue to read to them and with them every day.

We are continuing our learning about our topic—Where we live

We are focussing on our homes. Does your child know their address? Do they know their door number?

Why not take a walk around your local area or play hide and seek in your house!

We want the children to be able to talk about their home and family and some of the things that you do together at home.

Tryatops of the Week

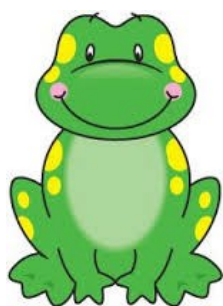

Congratulations to

Charlie Tremlett from Otter Class
and

Brooke Perry Feecham from Mole Class

who have shown real perseverance in their learning. They have received a certificate and are bringing home Tryatops for the week. Please help your child to fill in Tryatops' diary so we can find out all about what he gets up to.

For home learning this week...

Why not take a walk and look for signs that spring is on its way.

It may still be winter, but keep your eyes peeled – spring isn't as far off as it seems.

Look for tell-tale green shoots popping up from the woodland

floor

Birds start singing early in the morning – can you hear them?

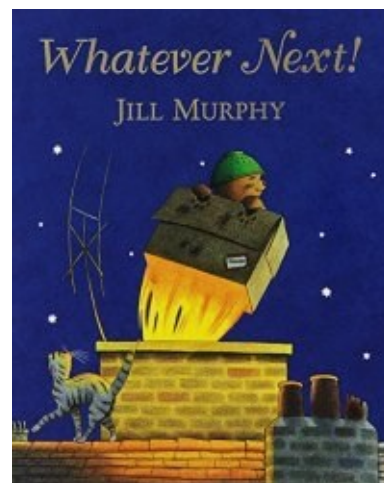

Can you find any leaf buds?

What other fresh spring signs can you spot? We are sending home a spotter sheet for you to take with you. We would love to hear about your child's nature walk or see some photographs or pictures.

Thursday is **World Book Day** and to tie it in with our Science week theme we are having a space theme dress up day.

Does your child have a favourite book space character that they could dress up as?

To give you an idea we are going to be reading the book 'Whatever Next' you can find the story on youtube.

Don't forget we love to hear about your child's WOW moments. Have they been a real Tryatops and challenged themselves to learn something new?

.....'s WOW Moment
